**Title must be ordered through: Chicago Title Insurance Company**

10. **Appraised Value of Changes:** Buyer is advised that not all upgrades and/or changes will increase the appraised value of the home. Buyer agrees to pay any difference between the amended sales price and the appraised value in the event of an appraisal lower than the amended purchase price.

11. **Closing Extension:** If closing of this transaction is delayed for any reason beyond the control of either Buyer or Seller, the closing date may be extended for up to five (5) days at the request of and without cost to either party. In the event Seller agrees to an additional extension of the closing date, Buyer shall pay \$\_\_\_\_\_ per day for that additional extension ("Extension Payment"). The Extension Payment shall be due upon the closing of this transaction.

12. **Metro Utilities Charge:** All new customers who connect to sewers in Metro's service area are required to pay a capacity charge.

The purpose of this charge is to recover costs for building sewage treatment capacity to serve new customers. Treatment capacity includes the cost of treatment plant expansions.

The charge is \$49.07 (01/01/10) per month per residential customer or residential customer equivalent for 15 years. Capacity charge bills are sent to affected customers about six months after sewer service begins. New customers are then billed directly by Metro every six months for 15 years or a one-time charge of \$6,070.25. At any time during this period, the balance of the remaining payments can be paid at a discount rate of 5.5 percent per year. Customers connected to sewers before Feb. 1, 1990, are not subject to the charge.

The Metro Council established this capacity charge to help offset the cost of providing wastewater treatment and conveyance capacity for all new customers. Development of Metro's capacity charge program followed 10 years of study and deliberations by committees of elected and appointed officials in the metropolitan area.

**How are affected customers billed?**

The monthly capacity charge is collected from new sewer customers directly by Metro twice a year. Metro will send the bill to the owner of the real property of a designated owner's representative. The information Metro uses to identify and bill these customers is collected by the cities and sewer districts Metro serves.

Metro serves 34 cities and sewer districts that operate local sewage collection systems. Metro operates the regional sewage treatment facilities.

**Why is this program needed?**

The charge ensures that all new customers share a portion of the cost of capital improvements to provide capacity to serve them. The charge will generate an estimated \$46 million over the first 10 years.

**Want more information?**

If you have questions or want more information about capacity charge, visit [www.dnr.metrokc.gov/wtd/capchrg](http://www.dnr.metrokc.gov/wtd/capchrg) or call Metro communications, Water Pollution Control Department, at (206) 296-1450.

13. **Right to Enter Property and Possession:** Buyer or Buyer's authorized agents shall have the right to enter upon the Property and make any agreed upon inspections, tests and surveys. Such access shall be at reasonable times and with at least one (1) day's notice to Seller. Buyer agrees to release, indemnify and hold Seller harmless from any damages, claims or liability, including attorney's fees, arising from such entry onto the property.

Seller shall deliver possession of the property to Buyer at or before 5:00 P.M. on the date Buyer is entitled to possession.
